Capacity development at ITU

Our mission

The Capacity Development work aims at achieving a digitally competent society where all people use knowledge and skills on digital technologies to improve their livelihoods.

What we do

Develop capacities of ICT professionals

Boost digital literacy and skills of citizens

Develop knowledge resources and tools for policy makers

The [ITU Academy](#) is ITU's online platform for learning and training in the field of digital development

150+ courses offered annually.

About the ITU Academy Training

Why this programme?

A global challenge

Our solution

Starting in 2023, the

How does the programme work?

What is the role of an ATC?

ITU Academy Training Centres ([ATCs](#)) are internationally recognized institutions offering high-quality training to intermediate and senior - level personnel, with a focus on the needs of developing countries.

...me work?

Policy and regulation

Network infrastructure

...ologies

Programme principles

Courses

ATCs will develop and deliver a minimum of 2 high-quality courses per year focusing on the established priorities, and in close collaboration with ITU experts, using ITU material where available.

Delivery

The majority of courses will be delivered online, through ITU's e-learning platform, the ITU Academy, but there is also be scope for hybrid and face-to-face courses.
